EDITORIAL ANNOUNCEMENT

Changes in the Editorial Board of Tetrahedron

The Board of Editors has decided on important changes which are intended to improve the service provided by *Tetrahedron* to the international community of organic chemists.

From 1 January 1981, two major innovations will be made in *Tetrahedron*: the acceptance of photo-ready manuscripts for rapid publication and the introduction of Symposia in Print (see below and revised Instructions to Contributors). To further these developments the following appointments have been made:

Professor Harry H. Wasserman (*Yale University*) becomes Editor of *Tetrahedron Symposia in Print* while retaining the American Regional Editorship of *Tetrahedron Letters*.

Professor Alan R. Katritzky (*University of Florida*) becomes Coordinating Editor of *Tetrahedron* with responsibility for the introduction of the photo-ready copy facility and also takes over the American Regional Editorship of *Tetrahedron* from Professor Wasserman.

Dr. G. C. Barrett (*Oxford Polytechnic*) becomes Joint Executive Editor of *Tetrahedron* and *Tetrahedron Letters* with Dr. Stephen.

Consequential changes regarding submission of manuscripts are detailed in the revised Instructions to Contributors printed at the back of each issue of *Tetrahedron*.
